

Cut the Scenes along the dotted lines.

The circles above can be printed on 8.5 X 11 label sheets available from office supply stores. Use a 1/2 inch circle craft punch to cut them out. You may need to help your child peel the sticker apart from the backing.

You may also simply print the circles onto regular paper or cardstock, cut them out using the 1/2 inch craft punch, then supply your child with a glue stick to glue the circles onto the mini scenes.

Place one scene with the corresponding circles (and glue stick if needed) into a zipper bag and place it into The Busy Box.
